Wilentz Health Law Check Up

On March 17, 2020, the Office for Civil Rights (OCR) announced the Notification of Enforcement Discretion for Telehealth Remote Communications during the COVID-19 Nationwide Public Health Emergency. In February 2020, the OCR at the U.S. Department of Health and Human Services (HHS) provided a bulletin to assist entities in determining the appropriate way in which patient information could be permissibly shared in compliance with HIPAA in the event of an outbreak of infectious disease or other emergency situations. OCR has outlined several ways by which the HIPAA Privacy Rule permits entities to disclose PHI without a patient's authorization.

New Coronavirus Law Allowing Waiver of Telehealth Restrictions

Wilentz Health Law Check Up

On March 6, 2020, President Trump signed HB 6074, the Coronavirus Preparedness and Response Supplemental Appropriations Act, 2020. The Act is an \$8.3 billion supplemental funding bipartisan package to address the coronavirus outbreak. The package includes the “Telehealth Services During Certain Emergency Periods Act of 2020” which gives the Secretary of US Department of Health and Human Services (HHS) the authority to waive or modify telehealth restrictions under Medicare during the coronavirus emergency to ensure Medicare beneficiaries are able to receive telehealth services at home without risk of exposure.

Pharma Gift Amendments

On May 6, 2019, the Attorney General adopted the proposed amendments to rules relating to prescriber acceptance of compensation from pharmaceutical manufactures. Generally, the rules limit prescribers, i.e., physicians, podiatrists, physician assistants, advanced practice nurses, dentists, or optometrists, from accepting gifts from pharmaceutical manufacturers and place \$15/\$30 limits on meals for promotional events. The new amendments do not significantly modify the rules, however, the rules provide additional clarity.

Continuing Medical Education

In May 2019, the New Jersey Board of Medical Examiners proposed a rule change for N.J.A.C. 13:35-6.15, which would implement hours of volunteer service for credit toward the 100 hour continuing medical education credit every biennial renewed period. Essentially, the Board proposal would permit a licensee to gain up to 10 hours of continuing medical education credits by providing care outside of their offices to low-income patients. Licensees will gain one credit for every two hours of care spent. However, volunteer hours are not counted toward the 40 hours required in Category I courses. Additionally, the Board has discretion to deny a licensee from including volunteer hours for credit if the licensee has to complete continuing education credit hours to maintain competence or to address developments in science or technology.
