

## BAR REPORT - The New Jersey Supreme Court Virtual Museum: An Interactive, Educational Experience That's Free and Always Available

11/12/18

In this *New Jersey Law Journal* article announcing the launch of the New Jersey Supreme Court Virtual Museum, the New Jersey Supreme Court Historical Advisory Board members discuss the new website's mission to preserve the history of the state's highest court through interactive online exhibits.

The New Jersey Supreme Court Virtual Museum reportedly provides a wealth of information about the Court's key figures, including biographies of the first seven Supreme Court chief justices to serve under the 1947 New Jersey Constitution, including the late Robert N. Wilentz, who served as Chief Justice from 1979 to 1996. The exhibits about Mr. Wilentz include a biographical profile about his distinguished service for nearly 20 years, his life, law career and other accomplishments; a collection of photographs; and a video of his 1993 interview for the former New Jersey Network.
