Cyberspace: Protecting Data is Serious Business

08/29/19

In the July 2019 Cybersecurity Special Report of *Commerce Magazine* covering the rise of cyber crime in the U.S. and internationally, Wilentz Shareholder and technology attorney Brett R. Harris discusses best practices for cyber preparedness to help businesses proactively minimize the risk of data breaches and reputational harm.

The article "Cyberstate: Protecting Data is Serious Business" was originally published in the July 2019 Issue of *Commerce Magazine* and is reprinted here with permission.
