

New Jersey Pre-Registration Website for the COVID-19 Vaccine Now Operational

01/12/21

New Jersey residents wishing to pre-register to receive the COVID-19 vaccine may do so online at the state's website at: <https://covidvaccine.nj.gov/>. In what appears to be an attempt to distribute COVID-19 vaccines in a fair and equitable manner, New Jersey has adopted a phased approach to prioritize COVID-19 vaccines to adults who live, work, or are being educated in the State.

If you are an employer with a question about adopting a COVID-19 vaccine policy or another COVID-related question, contact [Tracy Armstrong](#) or another member of the Wilentz [Employment Law](#) team.
