

WILENTZ

—ATTORNEYS AT LAW—

WILENTZ, GOLDMAN & SPITZER, P.A.

Why Hire Wilentz for Cartiva Lawsuit

Results achieved in prior matters are not meant to be a guarantee of success as the facts and legal circumstances vary from matter to matter.

You don't have to fight a billion-dollar medical device manufacturer alone. We have the resources, the experience, and the track record to stand with you.

When you file a lawsuit against a major medical device manufacturer like Stryker (the owner of Cartiva), you are going up against a team of corporate defense lawyers with virtually unlimited resources. To level the playing field, you need a firm with history and power.

Who We Are: Wilentz, Goldman & Spitzer, P.A. has been at the forefront of the legal profession since 1919. For over a century, we have been dedicated to protecting the rights of individuals injured by defective products and dangerous medical devices.

Meet Your Lead Attorney: *Joshua Kincannon* *Shareholder, Wilentz, Goldman & Spitzer, P.A.*

Mr. Kincannon has dedicated his career to holding manufacturers accountable. He specializes in mass tort litigation and defective medical devices. He understands that behind every case number in the MDL is a person whose life has been altered by chronic pain and lost mobility.

The Wilentz Difference:

- **National Leadership:** While we are based in New Jersey, we are actively representing clients across the United States in the Cartiva MDL.
- **Deep Resources:** Investigating medical device failures requires expensive experts—orthopedic surgeons, biomechanical engineers, and material scientists. We have the financial stability to front these costs to build your case.
- **Personal Attention:** In mass torts, clients often feel like a number. At Wilentz, we pride ourselves on maintaining the "counselor" aspect of the attorney-client relationship. We keep you informed every step of the way and are always available to discuss your case.
